Note: Many People in the field have a higher level of education and training than their job requires. For example, teachers with Master Degrees are working in all settings, from home-based care to licensed programs and public schools; and many home-care providers have Bachelor and even Master Degrees.

This higher level of knowledge and expertise may or may not be recognized in a person's compensation. Anyone who feels underpaid for his/her level of training may choose to make this clear to clients or employer, using the Career Lattice as an illustration.

An Individual Professional Development Plan (IPDP) at each career level guides the career path of each individual.

****Online course available**

Early Childhood Associate Apprenticeship Program ECAAP

The Early Childhood Associate Apprenticeship Program (ECAAP) is an innovative certification program that serves individuals working in childcare and early education.

ECAAP provides workers with quantifiable skills and portable, industry-recognized credentials that meet Kansas' early care and education requirements. It combines related technical and theoretical instruction (college credits) with planned on-the-job-training (OJT) under the supervision of a skilled mentor.

The program takes approximately **2 years to complete**. It requires 4,000 hours of OJT and 20 hours of early childhood college credit through one of our educational partners.

All apprentices work in early learning environments with children 0-5 years of age (30 hours a week minimum) and take coursework in Early Childhood Education. The on the job training is built around the Core Competencies for Early Care and Educational Professionals in Kansas and Missouri.

For the related classroom instruction, **ECAAP pays 100% of books, fees, and tuition** for these courses. We work with seven community colleges and have an online completion options available. ECAAP also pays the CDA assessment fee for apprentices. (Obtaining the CDA is one requirement of the apprenticeship program.)

The **Career Outlook** is provided to help you recruit and guide new individuals and employees through the early childhood professional development process in Kansas.

The first step to participating in a Registered Apprenticeship Program is for center-based employers to develop and register **program standards** with the Kansas Apprenticeship Council. ECAAP staff is available to help you through this process. Once the program is registered, the employer/center becomes a Registered Apprenticeship Sponsor and individual employees of the center may then register as apprentices under the Sponsor.

You can also visit our website at: **<http://www.kansasecaap.org>** or call **316-771-6830** for more information.
